Forecast For The United Kingdom
Issued by Met Office Exeter
at 1600 on Monday 15 Mar 2021

++ Valid for broadcast between 1800 and 0600

Headline:
Rain tonight, then becoming more settled and milder.

This Evening and Tonight:
Outbreaks of mainly light rain, drizzle and low cloud spreading eastwards across most parts of the UK overnight. Clearer skies reaching the far northwest later.

Tuesday:
Low cloud with some rain and drizzle moving south and east through the morning, followed by sunnier skies for many, though probably lingering across southeast England. Feeling warm in sunshine.

Outlook for Wednesday to Friday:
Largely dry and settled for most. Cloudier and milder across the north while in the south, especially the southeast it is likely to be brighter but colder for a time.
